

## *The UltraMito Rejuvenate 2.0*

Get back what you had before and more!

*UltraMito Rejuvenate 2.0* is a multiuse topical cream. It is a second generation product in the *UltraMito* line of mitochondria-related products. It was created by scientist and formulator Dr. Bevan Elliott. Informed by his background in nanotechnology, physics and emerging science, he created a new proprietary technology designed to potentiate the mitochondria.

Mitochondria are the components in your cells that produce energy and are involved in, virtually, every significant cellular function in the body.

Dr. Elliott's research indicates that what affects health the most is the health of the mitochondria. You literally can't be your healthiest unless your mitochondria are at their best. If the health of the mitochondria can be improved and you have more mitochondria, that are bigger and more energetic, your overall health can be improved.

*UltraMito Rejuvenate 2.0* is designed to work in concert with *UltraMito Restore*. While *UltraMito Restore* works from the inside out, *UltraMito Rejuvenate 2.0* works from the outside in allowing you to target areas of specific concern.

### **About *UltraMito Rejuvenate 2.0***

*UltraMito Rejuvenate 2.0* is highly recommended for anything that affects your hair scalp or skin anyplace on your body, face to feet, in an unwanted way.

*Rejuvenate* is great for anything that causes you to itch, scratch, breakout or be irritated. For example consider using rejuvenate for:

- joints that ache, hurt and cause you discomfort
- random bumps and breakouts
- fine lines and wrinkles
- sunburns or sun damage even if it's decades-old
- burns, cuts or bruises
- insect bites
- dandruff and other scalp issues
- razor bumps
- cellulite
- hemorrhoids
- scars
- moles, warts and skin tags
- a natural deodorant
- natural hairstyling and repairing damaged hair
- footcare
- sore, tired eyes
- use in the nose to open up sinuses
- and much more...

Rejuvenate also penetrates deep to affect tendons, ligaments, muscles and joints that may be aching, hurting and otherwise causing discomfort like:

- headaches
- neck, shoulder, back,, knee, ankle issues
- discomfort in extremities like hands or feet
- various exercise related injuries
- muscle strains and contusions

*Rejuvenate* uses natural ingredients that are amplified AND driven deep into cells and into mitochondria using proprietary XDS (eXponential Delivery System) technology.

Why is this important? Because to have the very best results, great natural ingredients alone are not good enough. The natural bioactive ingredients, typically, contained in nutritional supplements can have poor deliverability and don't easily get to where they need to go, to do the most good.

XDS formulations rectify this problem in a powerful way. It typically uses only a fraction of the normal daily dose for a given ingredient, compared to how much of the same ingredient is commonly used in other nutritional supplement formulations. Yet XDS is so effective that much greater benefits can result. Nutrients tend to work faster and with much greater results for more people.

The benefits of *Rejuvenate* can be especially important to those who:

- Want fresher younger looking skin
- Want a natural alternative to medication for discomfort
- Want to sharpen their vision and get quick relief in eyestrain
- Want to pursue a vigorous, athletic, workout routine
- Just want to be as healthy as they can possibly be with less emotional stress and physical discomfort

*Rejuvenate* was made for you! Try it from face to feet for anything that disturbs your skin or causing you discomfort.

**How do I take *Rejuvenate*?**

Thoroughly massage *Rejuvenate* into and around the affected area. Reapply multiple times a day as needed. Continue to use even after the discomfort is gone for more complete recovery. *Rejuvenate* can be used topically in combination with *UltraMito Restore*. Some like to put a teaspoon or so of *Restore* in their jar of *Rejuvenate* when they first opened it and shake it up or stir it in. It seems to give their skin and extra special glow.

**What should I expect and how quickly does it work?**

For some issues results can be seen within minutes. Others issues, including skin anomalies like moles, warts and skin tags will show results over time especially depending upon how much detoxification needs to be done.

Those with complex health situations, including ones involving medications and other supplements being taken, should be patient. The conventional wisdom is to allow at least three months to give any nutraceutical a fair test.
